KENTUCKY REPUBLICAN PLATFORM.

We are opposed to the free and unlimited coinage of silver, believing that it would involve the country in financial difficulties, and in the use of both gold and silver coins, provided always that a dollar in one must be as valuable as a dollar in the other.

We favor a tariff so regulated as to protect the interests of all classes of our citizens upon articles that may be successfully manufactured or produced in this country, thus insuring good wages and opportunities for labor, and not to the mere outside excitement now prevailing concerning the currency. In view of the past financial history of the Democratic party, its devotion to the Southern Confederacy, and its tendency to let the Southern Confederacy pass, we affirm that the Republican party can be more safely trusted to regulate the financial system of the Nation.

We favor an American policy which will protect Americans and Americans endeavor in any part of the world of all hazards and will sympathize with struggling Republics rather than ignorant monarchies.

Uncle Sam's Shows.

The deficit in the National Treasury for the present fiscal year—from July 1st to date—is \$15,000,000.00.

BRING assured that the person who would be Senator from this district through a so-called Republican nomination can read English and read Latin, though he cannot speak the former, it will be very much in evidence, after the 6th of November, that he can "walk Spanish."

This statement that Judge Hutchins registered as an "Independent," as made by The Bulletin and by the corresponding of The Louisville Times and The Courier-Journal, hardly fails that gentleman. The book shows that he never didn't designate any party affiliation, and this is probably as he desired.

THE Louisville Commercial says HARRIS gives the people of this state credit for a very low degree of intelligence when he endeavors to persuade them that the triumph of the Republican party will insure mixed schools and Negro domination. Even the Democratic editors, whose checks are armored in brass, have absorbed sense enough to know that that argument has the spinal meningitis.

Letters discovered in her room show that Miss Camille Russell, the young lady of Russellville who was found dead in her father's garden, was despondent on account of the indifference of a lover and had threatened suicide.

The G. A. R. hazed at Neptune Hall was very successful. Charles Paul was given a silver watch for selling the greatest number of tickets, and Miss Nora Clinger, daughter of Mr. and Mrs. George M. Clinger, was awarded the second prize, a handsome gold ring.

COURT OF APPEALS.

It Reversed the Judgment of the Mason Circuit Court.

Judge Goff, in reversing the judgment of the Mason Circuit Court in the case of Luke Dye vs. W. T. Grover, renders the following decision:

Appellant brought suit on a note executed by appellee to Amanda Mers for \$500, which is alleged to have been assigned to appellant, and the lower court gave judgment for appellee.

The only question properly before the court was as to the assignment and ownership of the note. It is proven beyond question that appellant bought the note that he had paid for it, and that he borrowed the money to pay for it and did not pay for it. It seems to us that the verdict is not sustained by any evidence. It may be that appellee, if he pays this debt, can recover the same from the administrator of W. T. Dye. We do not decide he is without remedy if the facts are as alleged by him.

Cochran & Son for appellant. E. L. Worthington for appellee.

THE ENTERTAINMENT.

Mr. Fox Was Greeted by a Small House Last Night.

Mr. John Fox met not a huge mass of people when he faced him last night at the Congress Inn, but that our citizens were the losers and that a packed house should have greeted the talented young author is attested by the hearty applause and sincere interest which was given every selection. Mr. Fox was unfortunate in missing the train at Lexington, delaying his coming to this city till 9 p.m. but the audience were so anxious to hear him that good-natured patience took possession of them and they awaited the time. It was not a wait without pleasure and diversion, however, for Mrs. Blanche C. Martin happened to be among the cultured men and women who came to hear Mr. Fox.

Mr. Martin is from Boston, Mass., a graduate of the Emerson School of Physical Culture and Oratory and has come to our city to teach these branches to the students of our schools. He has done a wonderful work in the schools and now is turning his attention to the universities and in connection with this we see the re-establishment of the doctrine of reciprocity. We believe that such a system will destroy every college, express company, telephone, all telegraph companies, railroads and many other institutions, and in the near future we expect to see the entire system of banking and currency go to pieces.

The cold reserve Tuesday in \$92,600.

For the fifteen days of October the treasury paid out \$752,750 in gold in redeeming United States notes and treasury notes, and for the fiscal year to date \$38,355,097 in gold.

FIRE ON THE EXPOSITION GROUNDS.

ATLANTA, Ga., Oct. 16.—There was considerable excitement on the Midway during the exposition grand Thursday evening, occasioned by fire, which started in the building occupied by the "Old Negro Plantation," and which caught on to the uncompleted arm of the Haagenbeck show. That building was entirely destroyed, but a considerable portion of the partition building was saved. The building burned rapidly and for a high west wind it was feared the whole Midway was doomed, but the flames finally succeeded in getting under control.

Mysterious Disappearance (Grand Upland). Oct. 16.—The remains of the four-year-old daughter of Adolph Engenre, why mysteriously disappeared last June, were found Thursday in the unashed attic of the building over a store in the center of the city where the family lived. She had clung to the roof until she slowly starved to death, her cries being heard by her distressed parents. When she disappeared several hundred citizens, including the fire department, searched the city and suburbs for her.

THE WAGNER CASE POSTPONED.

Dr. Joseph M. Dodge, of Dominick Wagner, the express magnate, was arraigned in the criminal court, and the trial, but on application of his attorney, the case was continued until the November term, at which he will be tried on the charge of embezzlement and possibly of rape and kidnapping. No definite date was set for trial, as Wagner does not desire to be released, but will remain in jail pending trial.

BATTLE ABBEY.

Magnificent Memorial Hall in Contemplation.

A Museum for the War Relics of the Late Southern Confederacy.

A New York Merchantant Offered \$100,000 for the Purpose—Plan Laid for Purchase and Additional \$600,000—Many Cities Want to Furnish the Site.

WASHINGTON, Oct. 16.—At the recent reunion of the confederate veterans' corps at Gettysburg, the speaker read from Charles B. Rones, a millionaire merchant of New York, offering to donate \$100,000 for a "Battle Abbey" of the South.

A massive four-story hall is contemplated, which it is proposed, is to contain sufficient historical data to compile therefrom a complete history of the part taken by the late confederacy in the civil war, a museum room for relics and such other rooms as may be needed to such an institution. Already the plans for raising the necessary sum of \$600,000 for the establishment of this "Battle Abbey" are under way.

Rones was a private in the confederate army at the battle of Winchester, Va. He has done much in the way of philanthropic projects for his native city, and is highly thought of throughout the south. It has been one of his favorite ideas that these should be compiled in a large number of books giving the history of the war from the confederate standpoint. He believes that numerous important facts and documents have escaped the notice of the historians that can be secured with comparatively little expense, and he is preparing to begin the work in the summer, as the ex-confederates throughout the country will do their part.

A lively sentiment of competition has arisen between various cities. Richmond, Va., has the lead from with an offer of her white house, in which President Davis sat, now containing a museum, and valued at \$300,000 when built. New Orleans followed with the offer of a handsome memorial hall, grand in its proportions, and there are hundreds of confederate relics and captured trophies, which has the historic interest, in addition, of being the place where Jefferson Davis lay in state during the time his remains were in the city.

Atlanta also has advantages to offer. She has a building known as the Soldiers' Home, which is not now used as such, which she will turn over to the cause if the institution is located in that city.

Montgomery also desires the opportunity to have the city of Atlanta, which has appointed a committee to wait upon Rones, and is making an active canvass among the citizens for promises of aid.

Baltimore is not behind with the competition for the coveted Battle Abbey, and it is expected still will have a magnificent offer to make.
